

Urban Mutations

CAPS Festival – 6th edition

From June to December 2026

Mural Locations

CAPS FESTIVAL

A must-see artistic event in northern Paris

6th edition - From late June to December 2026

Theme of the 2026 festival edition

URBAN MUTATIONS

For its sixth edition, CAPS Festival places Urban Mutations at the heart of its program. It invites us to observe the city in all its vitality: its transformations, its changes, its constant adaptation, and its ongoing evolution.

Through their murals, artists give shape to these changes, open up new narratives, and reinvent collective imagination. This edition offers residents the opportunity to reclaim their spaces, share their experiences, and co-imagine the city in the making.
